IBA's Premium Gel Tube Line

Milk Fever Gel Tubes

CAL "62" PLUS GEL

Mineral supplement specially formulated for use in dairy cows at calving time. Suggested use as an aid to help maintain normal calcium levels during the critical, immediate pre-partum and post-partum period. Contains 15% more calcium than any other calcium chloride tube and 53.7% of a unique base of Calcium Chloride and Calcium Carbonate, to lessen irritation.

CMPK PLUS D3 GEL

Specially formulated mineral supplement for use in dairy cows during calving time. Helps maintain normal Vitamin D and mineral levels during the critical late pre-and early post-partum periods. Contains calcium, magnesium, phosphorus and potassium along with Vitamin D3.

CAL-PROP "75" PLUS GEL

Specifically formulated mineral and vitamin supplement to maintain normal calcium levels in dairy cows during the critical pre-partum and early post-partum period. This gel has calcium, magnesium, phosphorus and potassium in addition to Vitamin D3. Calcium propionate is also a glucose pre-cursor in a non-irritating form.

Benefits of Milk Fever Gel Tubes

- *All natural*
- *No antibiotics*
- *No withdrawal*
- *No milk withholding*
- *No residues*
- *Rapid absorption*

ACTIVATED CHARCOAL GEL with electrolytes

Activated Charcoal Gel contains hardwood charcoal, attapulgite clay and electrolytes. This gel may be used as an emergency first aid for accidental poisoning resulting from insecticides, herbicides, organic chemicals, mycotoxins, bacterial contaminants or grain overload. This product can be safely used on adult cattle, horses, sheep, goats, cats and dogs.

Benefits of the Activated Charcoal Gel with electrolytes

- *All natural*
- *No antibiotics*
- *Use as an emergency first aid during accidental poisoning*
- *Multi species product*

Ketosis Gel Tube

KETO-AID GEL

A high energy nutritional gel packed with vitamins and trace minerals. This gel is used as an aid to help maintain normal blood glucose (sugar) levels during stress periods when ketosis (acetonemia) often develops. This gel tube contains the highest levels of niacin (15g) on the market!

Benefits of Ketosis Gel Tube

- *High energy supplement*
- *Packed with necessary nutrients*
- *Can be used as maintenance to prevent relapses*
- *All natural*
- *No milk withdrawal*
- *Complete and cost effective versus alternative*

Direct Fed Microbials (DFMs)

LACTO-BAC GEL

A direct fed microbial supplement for use in any stressful situation. This product has a guaranteed 15 Billion CFU of carefully selected strains of live (viable) naturally occurring beneficial bacteria including *Lactobacillus acidophilus* DDS-1, vitamins, minerals and extract of chicory. Use on dairy cows, sheep and goats. Patented bacteria stability protectant.

LACTO-BAC GEL (CALF)

A direct fed microbial supplement for use in any stressful situation. This product has a guaranteed 10 Billion CFU of carefully selected strains of live (viable) naturally occurring beneficial bacteria including *Lactobacillus acidophilus* DDS-1, vitamins, minerals and extract of chicory. Use on dairy cows, sheep and goats. Patented bacteria stability protectant. Product is available in an easy to administer single 10cc dose.

Benefits of DFMs

- *Helps in early recovery from stressful situations*
- *Reestablishes microbial balance*
- *Easy to administer*
- *Multi species product*
