CALCIUM CHLORIDE TUBE ON THE MARKET!!!**

## IBA's CAL "62" PLUS

## & KETO-AID GELS

### IBA'S CAL "62" PLUS GEL

is a specially formulated mineral supplement for use in dairy cows at calving time.

Formulated as an aid to help maintain normal calcium levels during the critical, immediate pre-partum and post-partum period. Each tube contains 53.7% Calcium.

### IBA'S CAL "62" PLUS GEL

Guaranteed Mineral Content:

Calcium .....	60.00 g	14.3% min.
	62.00 g	14.8% max.
Magnesium.....	6.80 g	1.7%
Cobalt .....	0.69 g	0.1%

### CONTENTS

Calcium Chloride, Calcium Carbonate, Water, Magnesium Chloride, Cobalt Sulfate, Dextrose, Sodium Citrate, Silicon Dioxide

AS WITH ANY ANIMAL HEALTH  
PRODUCT, BEFORE USE, READ AND  
FOLLOW LABEL INSTRUCTIONS.

### DIRECTIONS FOR USE

One tube can be administered just before or after calving.

If milk fever develops, then one tube is given 2-3 hours after regular IV milk fever treatment and another tube 12-16 hours later.

If condition continues, consult your veterinarian.

### ADMINISTRATION

Load cartridge in standard dosing gun and remove protective end cap. Place the nozzle near the back of the oral cavity and empty the tube contents, allowing the cow to swallow.

Cows must have a swallowing reflex and normal ruminal motility for the product to be effective. Extreme care must be taken when administering gel so that it does not enter the trachea and lungs. This can result in severe pneumonia and death.

**EASY TO ADMINISTER,  
TRUGEL CARTRIDGES FOR  
CORRECTING METABOLIC  
DISORDERS IN DAIRY COWS  
AT FRESHENING TIME**

# IBA'S CAL "62" PLUS GEL & KETO-AID GEL TUBES FEATURE:

## UNIQUE TRUGEL FORMULA

- Maintains ingredients in suspension.
- Will not run out of animal's mouth.
- Remains consistent at a variety of temperatures.

## 'SHORT' TIP TUBE

Short, non threaded tip on cartridge poses less chance of harming animals than longer tipped tubes. Tip accepts the McGrath hook for safer administration.

## NO RESIDUES IN MILK

No withdrawal requirements for milk or meat.

CAL "62" PLUS AND KETO-AID GEL TUBES
