Foot Bath Concentrate

IBA's Zinc Advanced Is A Concentrated Zinc Chloride Solution Designed For Foot Bath Application

- IBA's Zinc Advanced contains 29% Zinc Chloride.
- IBA's Zinc Advanced is freeze proof to -40°F.
- Safe for lagoons and digesters.
- Will not build up in soils.
- Forms an effective barrier around the hooves against bacteria and fungus.
- Helps harden hooves.
- No mixing required. Mixes easily with water when filling the foot bath.
- Odorless.

Directions For Use:

(DO NOT MIX OR USE WITH ACID)

For best results use IBA's Zinc Advanced in rotation with IBA's Copper Advanced. Mix 1 quart of IBA's Zinc Advanced for every 10 gallons of water in the foot bath. See Chart.

WATER Gallons	Zinc Advanced Gallons	Finished Gallons
20	0.50	20.50
25	0.63	25.63
30	0.75	30.75
35	0.88	35.88
40	1.00	41.00
45	1.13	46.13
50	1.25	51.25
55	1.38	56.38
60	1.50	61.50
65	1.63	66.63
70	1.75	71.75
75	1.88	76.88
80	2.00	82.00
85	2.13	87.13
90	2.25	92.25
95	2.38	97.38
100	2.50	102.50

Common 5 Day Weekly Rotation Protocols:

Protocol 1: Monday and Tuesday use IBA's Zinc Advanced. Wednesday, Thursday and Friday use IBA's Copper Advanced. See individual labels for more specific directions.

Protocol 2: Monday, Wednesday and Friday use IBA's Copper Advanced. Tuesday and Thursday use IBA's Zinc Advanced. See individual labels for more specific directions.

The use of IBA's Hoof Bath & Beyond along with IBA's Zinc Advanced and IBA's Copper Advanced will keep your cows' feet cleaner and more readily able to absorb the treatment. See your IBA Dealer for a complete line of Hoof Health Products available from IBA.
