Keeping with Traditions

ProFlex® DTPX

- A Bulls Eye with milking performance
- An inherent ability to keep teat ends healthy
- Callosity* evaluation shows improved tissue health compared to MilkRite Ultraliner** TLC Inflation. This allows for more effective milking with shorter machine-on-time
- Features in the barrel and mouthpiece are Patent and Trademark protected
- A New Addition to IBA's tradition of Positive and Productive Performance
- Unequaled longevity with continued performance throughout the life of the inflation
- A triangular barreled design

* *Definition of Callosity:*
A thickened and hardened part of the skin

** *Ultraliner is a registered name of MilkRite*

One of it's kind!
