**PRO-ZYME<sup>plus</sup>**  
**PRO-ZYME<sup>plus</sup>2X**

*A soluble, suspendible milk/milk  
replacer additive designed to  
mix with liquid feed for calves*

*Pro-Zyme Plus & Pro-Zyme Plus 2X are a unique blend of Probiotics & digestive enzymes to optimize the absorption of nutritional supplements for improved health and well being.*

### PRO-ZYME PLUS & PRO-ZYME PLUS 2X

Pro-Zyme Plus and Pro-Zyme Plus 2X milk/milk replacer additives contain a source of live (viable) naturally occurring microorganisms including *Lactobacillus acidophilus* DDS-1, increased guaranteed bacterial count (CFU) and patented bacteria stabilization process for improved viability.

- Contains Chicory Extract
- Contains Selenium, kelp and high levels of A, D, E and B complex vitamins
- Provides a cost effective method of continuing nutritional and microbial supplementation started with Opti-Cap Plus or Super Booster Boluses
- Easy to mix and highly **palatable**

**Let Pro-Zyme Plus or Pro-Zyme Plus 2X provide the additional source of vitamins in your Calf Management Program!**

When Pro-Zyme Plus and Pro-Zyme Plus 2X are used as a part of a complete Calf Management Program, these products may show the following benefits:

- Enhanced appetites
- Increased starter grain intake
- Daily gain increase
- Improved feed conversion
- Decreased death losses

Pro-Zyme Plus & Pro-Zyme Plus 2X Dairymen Noted Benefits:

- Increased calf vigor
- Reduced E. coli scours
- Heavier weaning weights
